XJ-500
Wireless Headphones

Comfort. Reliability. Accuracy. The XJ-500 offers superior stereo sound with a smooth and clear balance of treble, midrange, and bass. Engineered with 40mm neodymium drivers and Bluetooth 4.1 transmission with Qualcomm aptX codec support, these headphones produce high-definition audio wirelessly for up to 20 hours on a full charge. Crafted for all day, any day wear, with soft ear cups that offer a snug fit and comfortably tight seal for an immersive audio experience that keeps rich sound in and distracting noises out. Enjoy Cordless Convenience and Uncompromising Sound.
