

Rapid Vehicle Charger

Power To Fit Your Mobile Lifestyle!

The HyperGear 2.4A Rapid Vehicle Charger is perfect for active lifestyles! No more bulky chargers that take up space and snag on your cables! This compact charger is engineered with short circuit and overcharge protection and features a sleek, low-profile design, cutting-edge circuitry, and a removable 4ft charge & sync cable. It packs a punch with up to 2.4 amps of reliable, lightning-fast charging power for all your mobile devices. No more struggling to aim your cables in the dark either! The blue LED ring is not just a power indicator, it also sheds some helpful light. The HyperGear Rapid Vehicle Charger lets you power up on-the-go, so you always arrive fully charged.
