

Desktop Quad Charger

Keep Your Devices Charged & Organized

The HyperGear Desktop Quad Charger is the ultimate charging solution for your home or office. With four docking stations and USB ports in one sleek compact hub, you can keep all your devices organized neatly in one row. Thanks to an ultra-powerful 6.8A/34W output, you can charge up to four devices simultaneously at blazing fast speeds! There's no need to figure out the "right" USB port, Smart Chip Technology will identify the connected device and automatically deliver the optimal amperage. Power all your devices with minimal clutter.

Apple & Android
