

Lightning® & Micro USB Portable Charger

Pocket-friendly Power

It's a hassle to hunt down free outlets when you're on the go. This pocket-sized powerhouse is the ultimate all-in-one solution to keep your everyday essentials powered up. Featuring a 4000mAh capacity and built-in Micro USB and MFi Lightning connectors, this portable battery has a sleek profile that takes up less space than conventional chargers that need separate cables. Multi-device users can also enjoy simultaneous charging. Leave the heavy cables at home and travel light knowing that you have the best possible backup power source every time you step out the door.
