

Adaptive Fast Charge Roadstar 5

Transform your single car outlet into a 5 USB charger and power up to 5 devices simultaneously at maximum speeds! Cleverly designed with a 2-port plug and 3-port backseat hub, everyone in the car gets easy access to power. While every port is engineered to deliver a 2.4A maximum output to any USB device, the plug and hub each have one port that's enhanced even further with Adaptive Fast Charge Technology. Both ports can power up compatible Qualcomm devices from drained to 80% full in just 35 minutes! This is the best charger for high-occupancy vehicles that need a wide range of compatibility options to keep everyone fully powered on the road!
