

AN AMERICAN BRAND

Katana Headphones

The Katana offers superior stereo sound with a cutting-edge design. These stylish headphones are engineered with 40mm neodymium drivers for a smooth and clear balance of treble, midrange, and bass, and feature an in-line microphone and remote control, so you can switch between music and phone calls with the touch of a button. Crafted for all day wear with softly cushioned ear cups that offer a comfortably tight seal for an immersive audio experience that keeps rich sound in and distracting noises out.
