

Gravity

Wireless Fast Charge Mount

No more constantly plugging and unplugging cables, this wireless charging phone mount makes it easier than ever to charge on the road. Simply slide your phone into the cradle: the phone's weight will automatically pull the arms tight for a secure grip and your phone will immediately start charging. The incredible 10 watt output delivers 2 times the power of a standard charger, cutting down your total charging time by at least an hour! Stay hands-free and fully charged on the road.
