

# Razer Earphones

Combining high-fidelity with high-style, the Razer puts an edgy spin on an everyday audio essential. These earphones are the first of its kind to include an EZ volume slider! Now you can turn the music up or down with a quick slide instead of repeated clicks of a remote button. One simple move can crank the powerful 10mm neodymium drivers all the way up to rock-out levels or down to where you can have a quick conversation with soft background sound. Play all day in a whole new way!
