

# Power Tower 6

High-Speed Charging Station

6X  
USB

Never enough wall sockets to meet your charging needs? The Power Tower 6 will end your indoor power struggles and simplify your charging experience by transforming a single wall outlet into a multi-device charging station. Featuring 6 vertically stacked USB ports and a 30-watt output, it can charge up to six devices simultaneously at high speeds from one centralized location. It's a must-have for any home or office with multiple devices that need frequent charging. Charge Smarter with the Power Tower 6.
