

Wireless Power Hub 5™

Charging Station

Fast Charge
iPhone® & Android™

Perfect for the modern multi-device user, the Power Hub 5 features a built-in wireless fast charger and 4 high-speed USB ports. Charge 5 devices at the same time from a single AC outlet! The wireless charger delivers up to 10W, which is ideal to fast charge the latest iPhone and Android devices, and a powerful tablet-friendly 2.4A output from each USB port. The space-saving design fits on any desk or tabletop and individual docking stations will keep all devices neatly arranged while charging. Power everything, all in one place!

Works with all Qi-enabled devices
