

Wireless Charging Telescopic Mount™

Fed up with constantly plugging and unplugging charging cables in your car? This telescopic mount does double-duty as a secure phone cradle and convenient wireless charger. Stay powered-up while your phone is held at eye-level and easy reach for easy navigation, hands-free calling and music control. Charging begins as soon as you place your device onto the mount. Designed with a powerful suction, extendable pivoting arm and adjustable grips, you can quickly find the perfect position for your phone on either your dashboard console or windshield. Stay hands-free and fully charged on the road!
