

Wireless Charging Telescopic Mount™

Fed up with constantly plugging and unplugging charging cables in your car? This telescopic mount does double-duty as a secure phone cradle and convenient wireless charger. Stay powered-up while your phone is held at eye-level and easy reach for easy navigation, hands-free calling and music control. Charging begins as soon as you place your device onto the mount. Engineered with an incredible 10 watt output, the Fast Charging Stand delivers 2 times the power of a standard charger, cutting down your total charging time by at least an hour! Stay hands-free and fully charged on the road!
