

# Wireless Charging Mouse Pad

## Charges on Contact!

Mouse pads have only ever served one function – to provide a slick and even surface for a mouse to slide on. HyperGear is breaking that mold with the new Wireless Charging Mouse Pad. This 2-in-1 desktop product provides a solid surface for your mouse to slide on and also doubles as a wireless charger for your smartphone! No more plugging and unplugging charging cables everytime you need to step away from your desk, just place your Qi-enabled device onto the pad to immediately start charging! Wireless Power, Always at Hand.
