

H₂O Wireless Speaker

Portable Water Resistant Speaker

The bathroom may be great for singing, but hearing your favorite tunes while bathing is often disappointing. What happened to the sparkling highs and rich bass of your favorite back-up singers? Bring the music with you with the H₂O Wireless Speaker by Hypergear. This rechargeable Bluetooth® speaker puts all your favorite songs in easy reach. Simply press the suction cup on any smooth surface and enjoy hours of crystal clear music. Control playback, pause, jump forward and rewind with just a touch --And the best part? You may never have to rush -wet and dripping- to answer your phone again.

BONUS: Use it in the kitchen or by the pool for hands free music and conversation!
