

Magnetyze Wireless Car Stand & Charger

Includes DC Charger with USB Port

The Magnetyze Car Charger provides a sturdy base to charge and use your phone in the car. Once your phone is outfitted with the Magnetyze case (sold separately) the integrated magnetic connector attaches to the Magnetyze Car Charger for instant full speed charging.

Rotate your phone 360 degrees to horizontal or vertical alignment so you can continue charging while you use GPS or make hands-free calls. The DC outlet plug has a USB port so you can charge an additional USB-powered device while your phone is charging.

Rotates 360 Degrees

Special Features:

- Full speed cordless charging
- Attches firmly to your car's windshield, dashboard or console
- 360 degree rotation for viewing from any angle (great for GPS apps)
- Attach and detach magnetically - grab and go
- Built-in USB port works with all Magnetyze cases

Specifications:

- Input: 12-24V, 1.2A
- Output 1: 5V 1A
- Output 2: 5V 1A
