Power Hub 7

Charge & Store up to 7 Devices

The Naztech Power Hub 7 is the ultimate charging solution for your work place or home. This streamline system contains 7 charging ports along with 7 docking stations - all to help simplify and consolidate numerous charging devices onto one power hub! In addition to 70W of rapid charging power, it features smart charging technology that auto detects and adjusts charging output to optimal power, according to your connected device. Minimize desktop clutter while charging your devices!
