An explosive Sound

The SuperTooth Disco is a Bluetooth multimedia speaker which can be connected wirelessly to a Bluetooth mobile phone, a PDA or to a Bluetooth enabled computer. Once connected, you can stream stereo music from your phone or from your PC or Laptop to the SuperTooth Disco.

The SuperTooth Disco can also be connected to most media devices and MP3 music players with the included 3.5mm stereo cable. Disco features a line input at the rear side of the frame.

SuperTooth Disco tops all other competing products, it is very easy use and portable! As you play your favorite music from your device to the SuperTooth Disco, experience best sound quality, clarity and powerful bass!

WIRED

"Would I buy the SuperTooth Disco? Sure. Considering its size the speaker sounds fantastic. The portability is a huge bonus."

- Charlie Sorrell, Wired, December 2010

Chicago Tribune

"Stream music and bring the party with you in your pocket."

- Ryan Smith, Chicago Tribune, November 2010

Laptop-DRV

"The SuperTooth Disco has style, looking more like a guitar-amp with its metal grille, laid-back angle and big, retro-styled volume knob."

- Charlie Sorrell, Laptop-DRV, November 2010
